Product Repair

Diesel Levante, Levante thanks to the professionalism and experience of its technicians and a laboratory equipped with high precision test benches, is able to repair all kinds of fuel injection pumps and Turbochargers.

The customer can just fill in the **"Repair Application Form"** and forward it by email to: info@dieselevante.it or by fax at the following number: 080-5357579. Diesel Levante will arrange for the pick-up of the unit to be repaired by courier express.

The customer shall pack the component in an accurate way and include the "Repair Application Form" completed in all its parts and indicate the following information on the box: sender name, business name, address and telephone number and consignee references: **Diesel Levante srl – S.S.96 Km.116 – 70026 Modugno (Ba) - Italy**

Diesel Levante declines any responsibility for any damage occurred to the component during transportation.
The shipping costs anticipated by Diesel Levante for the pick-up and re-consignment of the unit will be billed on the sales invoice.
